UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
REGION V

**DATE:** June 22, 1990

**SUBJECT:** American Chemical Services  
Review of Wetlands Delineation Report

**FROM:** Eileen Helmer, Ecologist *E. Helmer*  
Technical Support Unit

**TO:** Dave Charters, Environmental Scientist  
Environmental Response Team

Wayne Gorski, Environmental Protection Specialist  
Wetlands Protection Section

Per discussions at the June 21, 1990 BTAG meeting (discussed with Mark Sprenger of ERT), attached please find a Wetlands Delineation Report regarding the American Chemical Services Superfund site in Griffith, Indiana. Bob Swale, the Remedial Project Manager, has requested the document be reviewed by various BTAG members with knowledge of the Federal Manual for Identification and Delineation of Jurisdictional Wetlands. Please review the attached report and provide me with any written or verbal comments you may have by July 9, 1990. I will consolidate my comments with yours and forward them to the RPM. During mid to late July, Bob expects to receive analytical results on samples collected from the wetland areas. He will make the results available to the BTAG for discussion of any further ecological investigations which may be warranted.

Please call me at (312) 886-4828, or (312) 353-1417, if you have any questions.
